SUSPENSIÓN DELANTERA Y DIRECCIÓN

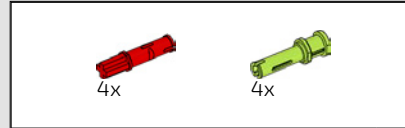

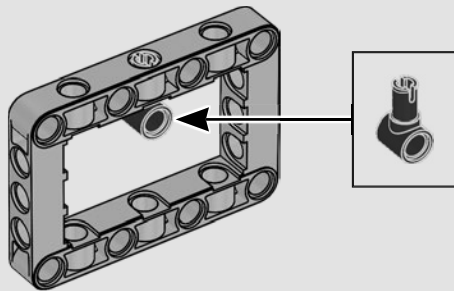

La altura de la suspensión delantera del McLaren P1™ es ajustable para optimizar su desempeño en condiciones de lluvia, para recorrer las pistas o para la conducción en carretera. (Esta versión LEGO® Technic tiene un solo ajuste y funciona mejor en interiores). En esta parte del modelo también se recrea la dirección asistida electrohidráulica.

COFRE DELANTERO Y FAROS

Los delgados faros del McLaren P1™, que ahora vemos con frecuencia en autos más nuevos, fueron una característica novedosa en el momento de su lanzamiento. Los principios de la dinámica de fluidos inspiraron muchos aspectos del auto, y la característica curva de McLaren domina en las superficies del P1, el logotipo de McLaren, el cofre... y los faros.

PUERTAS DE MARIPOSA

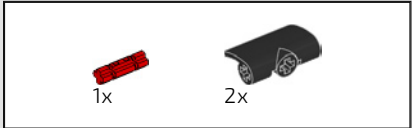

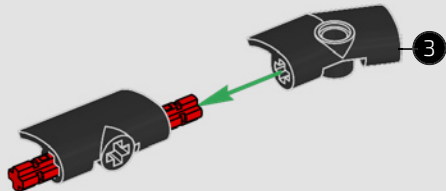

Los túneles de viento de los paneles de las puertas aportan al McLaren P1™ una ventaja aerodinámica adicional. Las puertas de mariposa huecas de este modelo reproducen el innovador diseño del original, y el amortiguador incorporado permite mantener las puertas abiertas.

CUBIERTA DEL MOTOR Y ALERÓN POSTERIOR

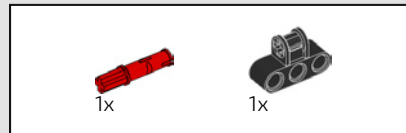

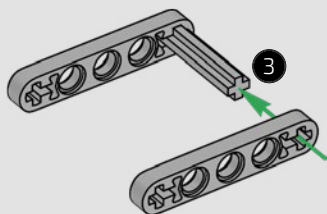

Los paneles moldeados de una sola pieza con forma de almeja del frente y la parte posterior del McLaren P1™ fueron una característica exclusiva del modelo original. Un botón ubicado en el volante del auto de verdad opera el ingenioso alerón posterior retráctil que controla la resistencia aerodinámica en función de la velocidad y la dirección. En el modelo, este se hace subir y bajar mediante un engrane ubicado en la parte trasera.

DINOS QUÉ PIENSAS...

Siempre nos esforzamos por mejorar los sets LEGO® Technic que creamos, así que nos encantaría conocer tu opinión. ¿Qué piensas del modelo en sí? ¿Cómo fue la experiencia de construcción? ¿Todo estuvo a la altura de tus expectativas?

Al responder a esta breve encuesta de opinión, participarás automáticamente en el sorteo de un premio LEGO. Visítanos en

[LEGO.com/productfeedback](https://lego.com/productfeedback)
